

Dear our Israelis friends!!

Hello!!

From the left in this picture, we are Nozomi,Chie, Mayu, Waka, and Minori.

We are 16 and 17-year-old girls. We are in the 11th grade. How about you?

We have 7 lessons at school every day: from 8:35 a.m. to 4:10 p.m.

We wear school uniforms. We don't like them and their colors.

Because they are not cool!!

We live in Kochi prefecture in Japan.

Japan has four main islands.

Kochi prefecture is on the smallest one located in the southern part of Japan.

We can see the Pacific Ocean from our school.

It is very beautiful!!

We introduce about Japanese New Year's Day.

JAPANESE NEW YEAR'S DAY!!

Japanese children fly kites.

Kites are made of bamboo and traditional Japanese paper.

We put strings on them and we run and raise them.

There are different sizes and designs.

For example, one design is of traditional Japanese "kabuki" or an animation character.

Our city holds a kite-flying contest in January.

This contest has many prizes.

This is front.

This is back.

Please tell us more about your culture and life!!

Bye!!

From Nozomi, Chie, Mayu, Waka and Minori.
