

The Glass Class Sharing Us With You

Here is a bit of information about our teacher, Mr. Rick Glass.

This is Mr. Glass when he was a baby. He still wears that hat when he does magic. He is a professional magician known as *The RAGMAN*.

This is Mr. Glass when he was a fourth grade student just like us.

This picture was taken when Mr. Glass said he helped Lewis and Clark discover the passage to the Pacific Ocean. We don't think people had sunglasses back then. He might be that old but we don't study about Lewis and Clark until next year.

His son, Michael, on the right, just retired after serving for twenty years in the United States Navy. He is now a policeman with the United States Department of Defense. Mr. Glass is very proud of his son.

Last year, Mr. Glass helped his students connect with nine other classrooms around the world. Each school was creating newspapers about their communities and they exchanged stories and articles.

Mr. Glass and his class from last year joined with Mrs. Kinsey's fourth graders to make *The Husky Howler* newspaper. Their newspaper was forty pages long. They sold advertising and made a profit! This year, we get to work with Mrs. Kinsey's new students. We are going to make three newspapers this year and we want to write a lot of stories about our new friends from around the world.

You should check out our school website at <http://www.warsaw.k12.in.us/harrison/index.htm>

There you can read *The Husky Howler*, learn about our school, visit Mrs. Kinsey's website and check out *The Glass Class* web site. We are working on a story about our new classroom. We will tell you more in our next letter. We are pretty excited. We are going to be on television!

We read in the email from your teacher that you have been on a holiday.

What holiday was it? What did you do or celebrate?

We would like to know more about your holidays and why they are important.

Mr. Glass told us that your city appears to be in a dangerous part of Israel. Is that true? Can you help us understand what that is like?

Best wishes,
The *Glass Class*
