

AbOuT my ScHooL...

When I went to the first class I was afraid, because I didn't know anybody. Some days later I made new friends. I have some nice teachers. In my opinion my school has good equipment. For example we have a fitness club, a gym, microscopes and a computer lab.

<==this is our computer lab..

Outside our school building isn't very beautiful ;) , but I hope this will change. Last storm broke lots of windows , they fell down and had to be replaced. ← so we're in an old building. If you're interested ...for example in English ☺ I think that you'll find something interesting for you.
